Arctic Lena

The Arctic Lena Sliding Track System follows the successful legacy of the Arctic Sliding Track System.

The new Arctic Lena range seamlessly integrates the innovation and benefits of the Arctic roller system within an offset glazed frame, to provide a minimalistic and streamlined style.

The Arctic Lena Sliding Track System is a cost-effective solution designed to maximise your commercial space and achieve a clean, contemporary style.

Why Choose Lena?

- + Easy installation - track clips into ceiling channel.
- + Design reduces space wastage.
- + Allows doors to slide within the wall thickness.
- + Low clearance mounting plates.
- + Soft-close roller mechanism.
- + Drilling Jig included to facilitate fabrication.
- + Stocked in natural anodised and can be powder coated.
- + Suits aluminium and timber doors up to 44mm thick.
