GALLIUM 25 + 100 - MCGRATH NICOL, MELBOURNE

Platinum, Linium and Definium now connect interchangeably.

The Platinum, Linium and Definium suites have been redesigned and improved so sections across each range can now connect together to deliver new unique glazing combinations.

All three ranges now also comply with the AS1288 glazing code for glass up to 12.38mm thick. Section clips have been improved to create a more positive connection to increase the stability and durability of these ranges.

For more detailed information on the advantages of the Criterion aluminium partition systems visit www.criterionindustries.com.au/products/aluminium-partitioning-systems/universal-pocket-partition-system.html or call 1300 754 337.

Residential spaces

PLATINUM - WARNER ST HOUSE

Platinum

The Platinum Suite is our signature premium wall partition system. Incorporating aluminium glazing frames across doors and windows, this superior design heightens interior style in both commercial and residential spaces.

Platinum offers four system options; each is universal and suited to a variety of settings. The Platinum range is ideal for architects who require a system capable of catering to different stud sizes and plasterboard thicknesses. The Platinum Suite is an interchangeable system that offers a fluid blend of uncompromising style and adaptive flexibility.

Why Choose Platinum?

- + 35mm reveal
- + Centre, Offset, Double Glazing available
- + Simple installation
- + Internal wall partition
- + Low maintenance
- + Maximum privacy with acoustic benefits
- + Commercial spaces with high traffic
- + Three point fixing design

Platinum 120

Suits 92mm stud and 13mm plasterboard.

PLATINUM 90 - AICKIN CHAMBERS, MELBOURNE

Definium

The Definium Suite is a heavy duty and interchangeable internal wall system designed to improve your acoustic performance.

Engineered for simple installation, the Definium Suite is easily fastened to walls with a robust three-point fixing method.

Definium offers a proven track record of reliability and consistency across a wide range of projects. The system complies with the Australian codes and standards for access and mobility, and fulfils the requirements of the glazing code.

Definium incorporates a strong and durable door frame that suits a variety of glazing options and accommodates a range of glass thicknesses.

Why choose Definium?

- + 50mm reveal
- + Centre, Offset, Double Glazing available
- + Simple installation
- + Internal wall partition
- + Low maintenance
- + Maximum privacy with acoustics benefits
- + Commercial, medical and educational spaces
- + Three-point fixing design

Linium

The Linium Suite is a contemporary glass partition system. Designed with a slim, precise profile, it delivers premium aesthetics in any commercial setting. With a 25mm clean slimline reveal, the Linium Suite integrates glass within the partitioning system to maximise the effect of organic lighting. Additional natural light creates the perception of increased space, can enhance focus and creativity, and improve the mood and overall performance of staff.

A popular choice with discerning architects and designers, the contemporary style and versatile design of the Linium Suite has been applied in a variety of commercial settings throughout Australia.

The Linium Suite is equipped with a heavy duty door frame design capable of accommodating a range of door thicknesses and up to 12.38mm of glass. Engineered with consideration of flexibility and custom versatility, the Linium Suite features additional joinery capabilities to integrate with other suites – including Platinum 90.

Why Choose Linium?

- + 25mm reveal
- + Centre, Offset, Double Glazing available
- + Simple installation
- + Glass partition
- + Light efficiency
- + Minimalistic
- + Heavy duty door frame
- + Can be used with Platinum 90 sections

PRODUCT RANGE

Linium 90

Suits 64mm stud and 13mm plasterboard.

Gallium

The Gallium Suite is a strong and versatile glazing system engineered for seamless integration into any commercial setting, regardless of wall thickness. The Gallium Suite is available in three variations. Gallium 25 is a glazing window system with a slim frame designed to complete the look of your design.

Gallium 45 is designed with a concealed centre fix position to simplify and streamline the framing installation process. The glazing frame can be installed into an existing opening with a variety of wall thicknesses. Equipped with a 'clip out bead' for an easier glass installation.

Gallium 100 is a robust glazing suite with a heavy duty frame. With high flexibility in application, it is perfectly suited to a range of scenarios where a sturdy frame is necessary. For ease and convenience, this suite can be installed before or after solid walls have been applied. An adaptor function in the rear of the frame allows for a consistent appearance and dimension between doors and windows. A highly flexible solution, Gallium 100 can also be used externally as it contains a sub head and sill for outdoor weather conditions.

Why Choose Gallium?

- + 25mm reveal
- + Centre, Offset, Double Glazing available
- + Simple installation
- + Glass partition
- + Light efficiency
- + Minimalistic
- + Heavy duty door frame
